PREAMBLE

This is a list of periodicals dealing with urban and environmental issues. There are over 420 entries in this publication yet the list is by no means complete. It covers all English language periodicals with national goals in the U.S.A. The listing of those outside the U.S.A. is less complete. Regional publications are listed less extensively though urban oriented periodicals received a broader coverage. There was no designed consistency in the selection of regional titles. Annotations were omitted because of time constraints.

Each entry is coded either "U" meaning urban or "E" meaning environmental or E & U meaning both. In some cases the reader may disagree with the coding qualifications. In such cases the authors made their own subjective decision and the reader should perhaps correct his copy as he sees the necessity.

The major sources used were the lists and stacks of the Pennsylvania State University's Pattee Library, University Park, Pennsylvania, and of the Pennsylvania State Library. Another important publication consulted was the Ulrich's International Periodicals Directory (1971-72) and Bowker's Serials Bibliography Supplement (1972).

Mr. Raymond Clugh is Program Administrator, Hershey Medical Center, Pennsylvania State University, Hershey, Pennsylvania. Ambrose Klain is Associate Professor in the Graduate Program in Regional Planning, Pennsylvania State University, Capitol Campus, Middletown, Pennsylvania. At the present, Professor Klain is engaged in the publication of a series of articles on urban and environmental issues in the Harrisburg Independent Press, a local weekly.
